EXAMINER'S AMENDMENT

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing or responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers, which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claims 1, 4, 5, 7-9, 11-19, 21 and 22 have been amended for further examination.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Scott Hansen on July 26, 2005.

The application has been amended as follows:

CLAIMS:

1. Please cancel Claims 3 and 20.

Allowable Subject Matter

2. Claims 1, 2, 4-19, 21 and 22 are allowed.
3. The following is an examiner's statement of reasons for allowance: No prior art of record discloses or fairly suggest a wrap-around notebook or binder comprising: a front and rear cover, a spine coupled to both the front and rear cover, a ring assembly having two elongated frame members pivotally coupled along one edge of each frame member, wherein the frame members are convexly curved outward; a shield member made of springy metal biasing the frame members and forming a shield/frame assembly; a first and second set of half rings mounted on each frame member; and a hinge plate having an outer surface and pivotally secured to the shield member with the outer surface of the hinge plate aligned with the outer surface of the shield/frame assembly when the hinge plate is oriented parallel to the plane of the shield; and including all of the other limitations of the independent claims.

The Young reference was the closest reference similar to applicant's invention. However, Young did not disclose frame members, which were convexly curved outward.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Prior Art

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kumar-Misir, Welch, Donovan, Roca, and Sato et al disclose similar wrap-around notebooks.
